January 15, 2020

# WORKING MEMORY & INTELLIGENCE

A one-day spring semester course for PhD students from different disciplines, including psychology, clinical, cognitive, educational and brain sciences

## PROGRAMME

Keynote talks of

- Prof. Dr. Klaus Oberauer "Models of Working Memory"
- Prof. Dr. Oliver Wilhelm: "Working Memory and Intelligence"

PhD presentations, interactive group discussions

**Prof. Dr. Klaus Oberauer**, teaches and researches at the University of Zürich. He is an internationally recognized expert of human working memory, with much of his work surrounding the search of an integrative theoretical model of working memory.
